

Clear streets. Thriving markets.

HARARE / 2030 ASPIRATION

AI DESIGN CONCEPT / No exact street reconstructed / Future mature planting

Room to walk. Space for trade.

A proposed future with open footways, welcoming shops and dedicated, serviced places for traders.

A place to trade. Room to move.

HARARE / 2030 ASPIRATION

AI DESIGN CONCEPT / No exact street reconstructed / Future mature planting

A market that stays welcoming.

Sheltered stalls, clear customer routes and daily care. Evening opening needs reliable lighting, power and an agreed operating plan.

Independent proposal. No approved site, permit offer or delivery date.

TAWANDA (TAZ) MUKOKO / RGB DESIGN PROOF / A3

H / HARARE MARKET COMMONS

VISION LAB / MUKOKO.STUDIO

Clear streets. Thriving markets.

Room to walk. Access to shops. A better place
to trade.

HARARE / 2030 ASPIRATION

Independent design proposal. No approved site or delivery date.

AI CONCEPT / No exact street reconstructed / Mature planting

Campaign production notes

THE INTENT

Show clean, accessible streets alongside viable trading places. These boards present an independent design direction, not an official relocation notice or permit offer.

THREE DESIGN PROOFS

Pages 1 and 2: A3 portrait, 297 x 420 mm. Page 3: banner, 1200 x 400 mm. Page sizes are trim size only. No bleed, crop marks, CMYK conversion or substrate finishing is certified.

IMAGE RESOLUTION

Original AI artwork is 1672 x 941 pixels. Poster artwork has an upper-bound source density of about 155 ppi; cropping may reduce it. Banner artwork is about 58 ppi before crop. A larger print needs higher native-resolution artwork or a printer-approved viewing-distance proof. Enlarging a file does not add detail.

PUBLIC BEFORE / AFTER

The existing publisher photographs remain private and are excluded. Commission dated, permission-cleared photographs at agreed camera positions. Record street name, direction, capture date and consent. Label a proposed after as AI concept; do not imply completed works.

LOCAL REVIEW BEFORE INSTALLATION

Agree placement with the authority and property owner. Test readability on the street and preserve access. Confirm site, operator, funding, services and affordable allocation terms before announcing any move. Do not promise an opening date until delivery is agreed.

EDITABLE SOURCE

The authoring Python file accompanies this pack. Typography remains vector text; artwork is raster. The source can produce revised copy and dimensions with the supplied images.
